

What did EPA do to get the word out that the site won't be listed before fall 2016?

Mike talked to: Phillip Mitchell Flathead County Commissioner, Mayor Don Barnhart, City Manager Susan Nicosia, City Council Member Dave Peterson.

I also received calls from and talked to; Chris Peterson of the Hungry horse News, Lynette Hintze of Dailey Interlake, Dillon Tabich of the Flathead Beacon, McKinzie Allen of ABC Fox – Kalispell. They all heard we were going to wait to make a decision on listing in the Fall of 2016. Some wanted to verify others asked to explain the process.

Also Talked with: Kyle Schmauch with Senator Daines Kalispell office, John Fuller with Zinke's office and Chad Campbell and Smith Works of Senator Testers office.

Also, several news outlets covered the story:

What else can we do to get word out to the community?

The CFAC Liaison Panel has a mailing list as does EPA. We could send a notice to folks on those mailing lists about the listing schedule.
